

Foreword

The Asian and Oceanian Congress of Epilepsy was first held in 1996 in Seoul, Korea, followed by Taipei, Taiwan (1998), New Delhi, India (2000), Karuizawa Nagano, Japan (2002), and Bangkok (2004). The 6th Congress was held in Kuala Lumpur, Malaysia on 16-19th November 2006 in the KLCC Convention Centre with more than 1,600 delegates.

This supplement contains the proceedings of the plenary sessions, symposiums, and 40 selected abstracts from the free papers presented. The editor is grateful to the authors for expanding and updating their abstracts, members of the Scientific Affairs Committee for evaluating and selecting the best papers.

The publication of the proceedings is very much the idea of the late Dr Masakazu Seino, the previous chairs of Asian and Oceanian Epilepsy Organization (AOEO), Commission on Asian and Oceanian Affairs (CAOA), and Asian Epilepsy Academy (ASEPA), who often commented that without publication of proceedings, organizing of conferences are meaningless.
