

Foreword

The Asian and Oceanian Congress of Epilepsy was first held in 1996 in Seoul, Korea. Since then, the AOECs have been regular biennial events in the calendar of Asian epilepsy care profession. The 7th Congress was again a successful and memorable event held in the beautiful city of Xiamen, China on 15-18th May 2008.

This supplement contains the proceedings of the plenary and parallel sessions, symposiums, and selected abstracts from the free papers presented. The editors are grateful to the authors for expanding and updating their abstracts, members of the Scientific Affairs Committee for evaluating and selecting these presentations for publication.
